Federal Educational Rights and Privacy Act
The Federal Educational Rights and Privacy Act (F.E.R.P.A.) govern the sharing of information from a student's record. This Act establishes guidelines for releasing information pertaining to the educational records of students. The Act permits students to restrict access to their records. According to the requirements of F.E.R.P.A., an official of your chapter must have your written permission for grades to be released and reviewed for compliance with your fraternity's academic policies and organizational behavior guidelines, policies, and/or rules. Your authorization allows your personal grade point ratio (G.P.R.) to contribute to the compilation of your chapter's cumulative grate point ratio and information about your participation in organizational activities to be released to the inter/national organization of which your fraternity is affiliated.

I, herby authorize the release of my cumulative and semester grade point average, hours attempted and participation in organization activities to the Office of Student Affairs and Greek Life at Bethune-Cookman University. This authorization shall remain in effect as long as I remain a member of the organization listed and am enrolled at Bethune-Cookman University.
